ARTWORK REQUIREMENTS

- All our printers are **CMYK**. Please make sure your design is created in CMYK, as any other colour range may differ once printed and we will unfortunately not be held responsible for this once printed.
- Please add 3mm bleed to any artwork on the outside & leave a 5mm safe text area on the inside of the cutline...and don't forget your cutline!
- We do not cut any work supplied without cropmarks.
- We work in Corel Draw 16, but please supply all artwork in a high quality pdf or jpg if you can't supply a CDR file.
- We DO NOT print from ANY Microsoft program...SORRY!
- Make sure that all fonts are converted to curves/embedded/outlined.
- Please be a little patient if we need to design something new for you. Creativity takes a little more than an hour or two, and as we have quite a few customers, we want to give your artwork special attention.
- Any artwork amendments done by Gecko Printing will be charged a fee.
- No new changes or new designs will be printed without the clients approval/sign-off.
